Description

ISO 15835-2:2009 specifies test methods applicable to couplers for mechanical splices of steel reinforcing bars.

ISO 15835-2:2009 is intended to be applicable in relation to the various standards for steel reinforcing bars as well as in relation to the various reinforced concrete design standards.

For assistance with locating previous versions, please contact the information provider.

Notes/comments

Note: Original citation from NZS 4230:2004 was to a committee draft version ISO/CD 15835. This draft was then published in two parts as ISO 15835-1:2009 and ISO 15835-2:2009
