## ISO 3009:1976 Fire-resistance tests -- Glazed elements

[View on Information Provider website](#)

Abbreviation

ISO 3009:1976

Valid from

01/09/1976

---

Information provider

International Organisation for Standardization

Information type

ISO Standard

Format

PDF

---

**Description**

Specifies methods of testing and assessing non load bearing, vertical glazed elements of construction which are intended either to provide, wholly or in part, separation between different areas in a building, or to form part of the external walls. It is applicable to glazed separating elements such as windows, walls of glass blocks and other light-transmitting assemblies.
