**Description**

Specifies requirements for the design and performance of the fittings, being for general purposes for the transmission of fluids and gases up to the limits of pressure and temperature specified. They are intended for the connection of elements threaded in accordance with ISO 7/1, sizes 1/8 to 6. For use in conditions outside the pressure and temperature limits specified, consult the fitting manufacturer.

**Scope**

This International standard specifies requirements for the design and performance of malleable cast iron threaded pipe fittings. These fittings are for general purposes for the transmission of fluids and gases up to the limits of pressure and temperature specified in this International standard. They are intended for the connection of elements threaded in accordance with ISO 7-1, sizes 1/8 to 6. For use in conditions outside the pressure and temperature limits specified, consult the fitting manufacturer.
