ISO 527-5:1997 Plastics - Determination of tensile properties Part 5: Test conditions for unidirectional fibre-reinforced plastic composites

[View on Information Provider website](#)

Abbreviation

ISO 527-5:1997

Valid from

10/04/1997

Information provider

Standards New Zealand

Author

International Organization for Standardization

Information type

ISO Standard

Format

PDF

Cited By

[This resource is cited by 1 document \(show Citations\)](#)

Description

This standard specifies the test conditions for the determination of the tensile properties of unidirectional fibre-reinforced plastic composites. The method is suitable for composites with either thermoplastic or thermosetting matrices.
