Description

ISO 7456:2007 specifies the grades and quality, the dimensional characteristics, the dimensional and geometrical tolerances, and the surface finish of standardized guide rails and their fishplates.

In addition, ISO 7456:2007 defines a designation system for guide rails.

ISO 7456:2007 is applicable to guide rails used in passenger lift and service lift installations to

provide guiding for the car and the counterweight.
