Mind your roof claddings - Build 176 (2020)

[View on Information Provider website](#) [Download this resource \(PDF, 1.3MB\)](#)

Abbreviation

Mind your roof claddings - Build 176 (2020)

Valid from

01/02/2020

Information provider

BRANZ Limited

Information type

BUILD article

Format

Website, PDF

Description

Proper on-site management of roof cladding is critical to delivering quality buildings. This is the final in a series on materials storage requirements and outlines how to store and handle roof claddings.

ROOF PERFORMANCE can be compromised when roof cladding materials have been stored and handled incorrectly, or lower roofs are unprotected when work is carried out above.

Scope

This article includes the following:

- Challenges with delivery and storage
- Transporting metal claddings
- Prefinished profiled long run metal claddings
- Pressed metal tiles
- Clay and concrete tiles
- Asphalt shingles
- Timber shingles
- Polymer modified torch-on bitumen
- Sheet membranes
- When storing materials on the roof
- Cladding system components
