NASH Standard - Residential and Low-Rise Steel Framing Part 1 2010 Design Criteria

[View on Information Provider website](#)

Abbreviation

NASH Standard Part 1:2010

Valid from

01/05/2010

Information provider

National Association of Steel Framed Housing

Author

National Association of Steel Framed Housing

Information type

Standard

Format

PDF

Description

This Standard covers both residential and commercial low-rise steel framed buildings and is fully limit-state based and will enable structural engineers to create efficient and economical steel framing systems. It sets structural adequacy and serviceability aspects of the design criteria for everyday steel-framed structures like houses as well as other low-rise residential and commercial buildings.
