## NFPA 13-2013 Standard for the Installation of Sprinkler Systems, Prior Editions

[View on Information Provider website](#)

### Abbreviation

NFPA 13-2013

### Valid from

01/01/2013

---

### Information provider

National Fire Protection Association

### Author

National Fire Protection Association

### Information type

Other Standard

### Format

PDF

---

### Cited By

[This resource is cited by 1 document \(show Citations\)](#)

---

### Description

Long considered the benchmark for automatic fire sprinkler systems, *NFPA 13* presents consensus-based requirements for sprinkler system design approaches, installation, and component options. Compliance is essential to sprinkler performance, which in turn significantly reduces the risks of fire deaths and property loss. Each new edition of *NFPA 13* reflects added knowledge about sprinkler performance under fire conditions. Changes are based on scientific research and a wide body of industry experience.

For assistance with locating previous versions, please contact the information provider.

### Notes/comments

**Note:** The NFPA website allows users to select different years using the drop down box labelled 'Edition'. To select the year you require, click the drop down box and select the appropriate year of the standard.
