Building Code Clause C2 - Prevention of fire occurring

[View on Information Provider website](#)

{{ linkText }}

Abbreviation

NZBC C2

Valid from

10/04/2012

Information provider

Parliamentary Counsel Office

Information type

Legislation

Format

PDF

Description

Building Code Clause C2 Prevention of fire occurring, is about safe design and installation of fixed appliances using controlled combustion and other fixed equipment. This clause safeguards against illness or injury due to fire occurring by setting requirements about the way controlled combustion and other fixed fire equipment is designed, constructed and installed in buildings. It sets a maximum surface temperature for nearby combustible building materials and sets requirements to ensure a low probability of explosive or hazardous conditions due to installation.
