Description

This Standard specifies requirements for identification, physical requirements and methods of sampling and testing of chemical admixtures for concrete of the following types:

- Type WR, water reducing;
- Type RE, set retarding;
- Type AC, set accelerating;

- Type WRE, water reducing and set retarding;
- Type WRC, water reducing and set accelerating; and
- Type AEA, air entraining.

For assistance with locating previous versions, please contact the information provider.

#### Notes/comments

Note 1) The most recent version of this Standard is the 1979 edition (withdrawn in 2006).

While this Standard is withdrawn, it remains relevant for a number of New Zealand Standards such as;

- AS 1546.1:2008
- AS/NZS 3500.2:2015
- NZS 3109:1997
- NZS 4206:1992
- NZS 4210:2001

Note 2) References to NZS 3113:2005 are a typographical error as no further editions were published (note "AS/NZS 3113 Approval and test specification— Ceiling roses" is a separate and unrelated Standard).
